

Year One News

Friday 27th January

Phonics

This week we have focused on the sounds: **or, ir, ow, aw, wh**

Please see separate Supersonic Phonics newsletter for more information.

Maths

In maths this week we have been focusing on balanced subtraction. We spoke about how to make it successful through ensuring that each side of the equals sign is the same value and is balanced/equal.

History

This week in History we learnt about the significance of Amelia Earhart. We found out who she was and what she achieved. We looked at what oceans she flew across as well as the year in which she disappeared.

PE

This week in PE we started our new scheme of learning of gymnastics. This week we explored different ways of moving using our bodies. Some children tiptoed, some crawled around, some children moved using two feet and one hand, there were some great imaginative moving techniques!

English

In English this week we wrote a thank you letter to the planetarium. We told the planetarium what we liked most from our experience as well as what we think could have been even better. We have tried to include adjectives this week and wording up, for example instead of using the adjective nice for a star we have worded up and said a sparkly star. Some of us have also challenged ourselves to include conjunctions within our writing too.

Science

In Science this week we have looked at which materials are absorbent and waterproof. We then carried out an experiment to find out which of the materials we had were absorbent and which were waterproof. We then discussed which material was the most absorbent and discussed why this might be.

Dates for your diary
