

WHAT HAVE WE BEEN LEARNING IN DIAMOND CLASS?

WB 2.5.16

We have had a wonderful time observing the chicks all week, talking about how they have changed and watching them starting to take their first tentative flapping of wings! The children have also had the opportunity to hold the chicks, which they all enjoyed. We spoke about how important it is to care for animals and how you care for an animal.

We have had a great week outside applying our collage skills to a larger scale, using resources outside to create large collages. The children worked in groups and decided between them which picture to create. They were confident in selecting a whole range of resources from outside and discussed how they could arrange them. Lots of brilliant collaboration, speaking and listening skills being used.

A reminder that today is the deadline for the remainder of the school trip money if you haven't already paid. If you are having any problems funding the trip, please speak to Mrs Crane or Mrs Hunter in confidence.

Don't forget Tapestry is updated regularly, so look out for your email alerts.

Also, the school website has lots of information on, including any letters we send out to you, term dates and other key information.
