Geography Knowledge map

How does geography in the UK compare with Trinidad?

Vocabulary	
Compass points - North, South, East and West	Compass points are the directions you can see on a compass, which is a tool used to find your way. There are four main compass points: North, South, East, and West.
Equator	The equator is an imaginary line that circles the middle of the Earth, dividing it into two equal halves: the Northern Hemisphere and the Southern Hemisphere.
Climate	Climate refers to the usual weather conditions in a particular area over a long period of time.
Continent	A continent is a large area of land on Earth that is surrounded by oceans.
Dry Season/ Wet season	The dry season is a time of the year when there's not much rain. The wet season, also known as the rainy season, is a time of year when a lot of rain falls in certain parts of the world.

Skills I need:

-Use world maps, atlases and globes to identify the United Kingdom and its countries.

-Comparing climates, identifying physical features

Compare regions that are very hot with ones that are very cold, focusing on climate, temperature and people.
