Computing Knowledge map
Pictograms

Vocabulary	
organise	Organise means to arrange things in a way that makes sense so you can find them easily and use them when you need to. To organize objects you could sort them by colour, object, size etc .
tally chart	A tally chart is a simple way to keep track of numbers and organise information using marks or lines.
pictogram	A pictogram is a simple picture or symbol used to represent a word, object, or idea.
attribute	Attributes help people sort and make sense of different pieces of information.
compare	Comparing means looking at two or more things to see how they are the same and how they are different.
block diagram	Block diagrams **show data using blocks**. Each block represents one item

Skills I need:

-recognise that we can count and compare objects using tally charts

recognise that objects can be represented as pictures

create a pictogram

present information using a computer
